## PROFILE

Graduated in computer science major with 3.57 GPA. In my professional career, I have two roles such as full stack engineer and IT support specialist. In those two years, I did bug fix and created two applications such as ticketing and mobile hospital application. While I have enjoyed working on both the front-end and back-end of web development projects, I have recently discovered a strong passion for front-end development.

## EMPLOYMENT HISTORY

- ❖ **Full Stack Engineer, Accelist Lentera Indonesia** ..... Mar 2020 — Mar 2021  
Tangerang
  - I had the opportunity to work on a challenging and rewarding project, where I developed hospital app using Flutter and ASP. NET technologies. This app has a various kind of features that helps patient find the nearest hospital, booking doctor, video calling with doctor and buying medicine for doctors
  - My responsibility of this development were making the user interface of the mobile app and creating database for the app. I have created various of API to enable the main features of the apps.
- ❖ **Full Stack Engineer and IT support, Accelist Lentera Indonesia** ..... Mar 2021 — Mar 2022  
Tangerang
  - As a Full Stack Engineer and IT Support, I have had the opportunity to work on diverse range of project that required me to troubleshoot and resolve complex issues. I had fixed data optimization and UI Bug fixes.
  - My accomplishment as a Full Stack engineer was the development of ticketing application, which greatly improved the efficiency of documenting bug fixed for our IT Support Team. As a result, we have significant reduction of time documenting the bug fixes, overall the productivity in IT support Team increased significantly.

## EDUCATION

- ❖ **Binus University** ..... Sep 2017 — Mar 2021  
Computer Science Jakarta
  - As a 3.57 GPA Computer Science graduate in 3,5 years. My excellent work ethic, commitment to excellence, and enduring passion for technology and innovation are evident in my academic results.
